FELIXCAN
ANIMAL ID

F1
Portable Reader for Animal Identification

Highlights:

- **Small size and ergonomic design**
- **High-contrast display that can show the last code detected even after the reading session**
- **Up to 600 electronic identification codes stored in the internal memory**

Product description:

The F1 reader can read HDX and FDX-B microchips. Its smaller size and ergonomic design allows the user to carry it everywhere comfortably. The reader comes with a highly luminous LED light which lets veterinarian perform examinations of the eye. The F1 reader is supplied with a big and high-contrast screen as well as with an internal memory able to store up to 900 readings. The reader is equipped with a rechargeable Lithium-Ion battery that can be recharged by connecting the USB cable to a USB port on your computer. The F1 reader also displays the last microchip scanned even if the device has been turned off.

Technical Data:

Dimensions	107 x 48 x 24 mm	Battery	Li-ion
Weight	50 g	Interfaces	USB
Housing material	ABS	Memory	Up to 900 codes
Operating temperature	0°C/+40°C	Typical reading distance	FDX-B (2 x 13 mm) up to 11 cm
Charging temperature	0°C/+40°C	Standards	ISO 11784/85
Storage temperature	-10°C/+60°C
